**NETWORK
MONITORING
SOLUTION**

www.obzora.net

Keep Your CCTV Network Always Up and Running

Our advanced CCTV Monitoring Solution is designed to ensure maximum uptime, quick issue detection, and cost-effective management of your entire surveillance infrastructure. No more blind spots, missed recordings, or unexpected failures.

Key Benefits

Real-Time Device Health Check

Instantly detect offline or malfunctioning cameras, NVR/DVR, and network devices.

Network & Bandwidth Monitoring

Ensure smooth video streaming and recording without lags.

Storage Utilization Alerts

Get notified before your disks fill up, preventing video loss.

Key Benefits

Power & Connectivity Supervision

Identify faulty connections or power outages quickly.

Centralized Dashboard

One simple view for your entire CCTV setup – accessible anytime, anywhere.

Proactive Alerts & Reports

Automated notifications help you take immediate action.

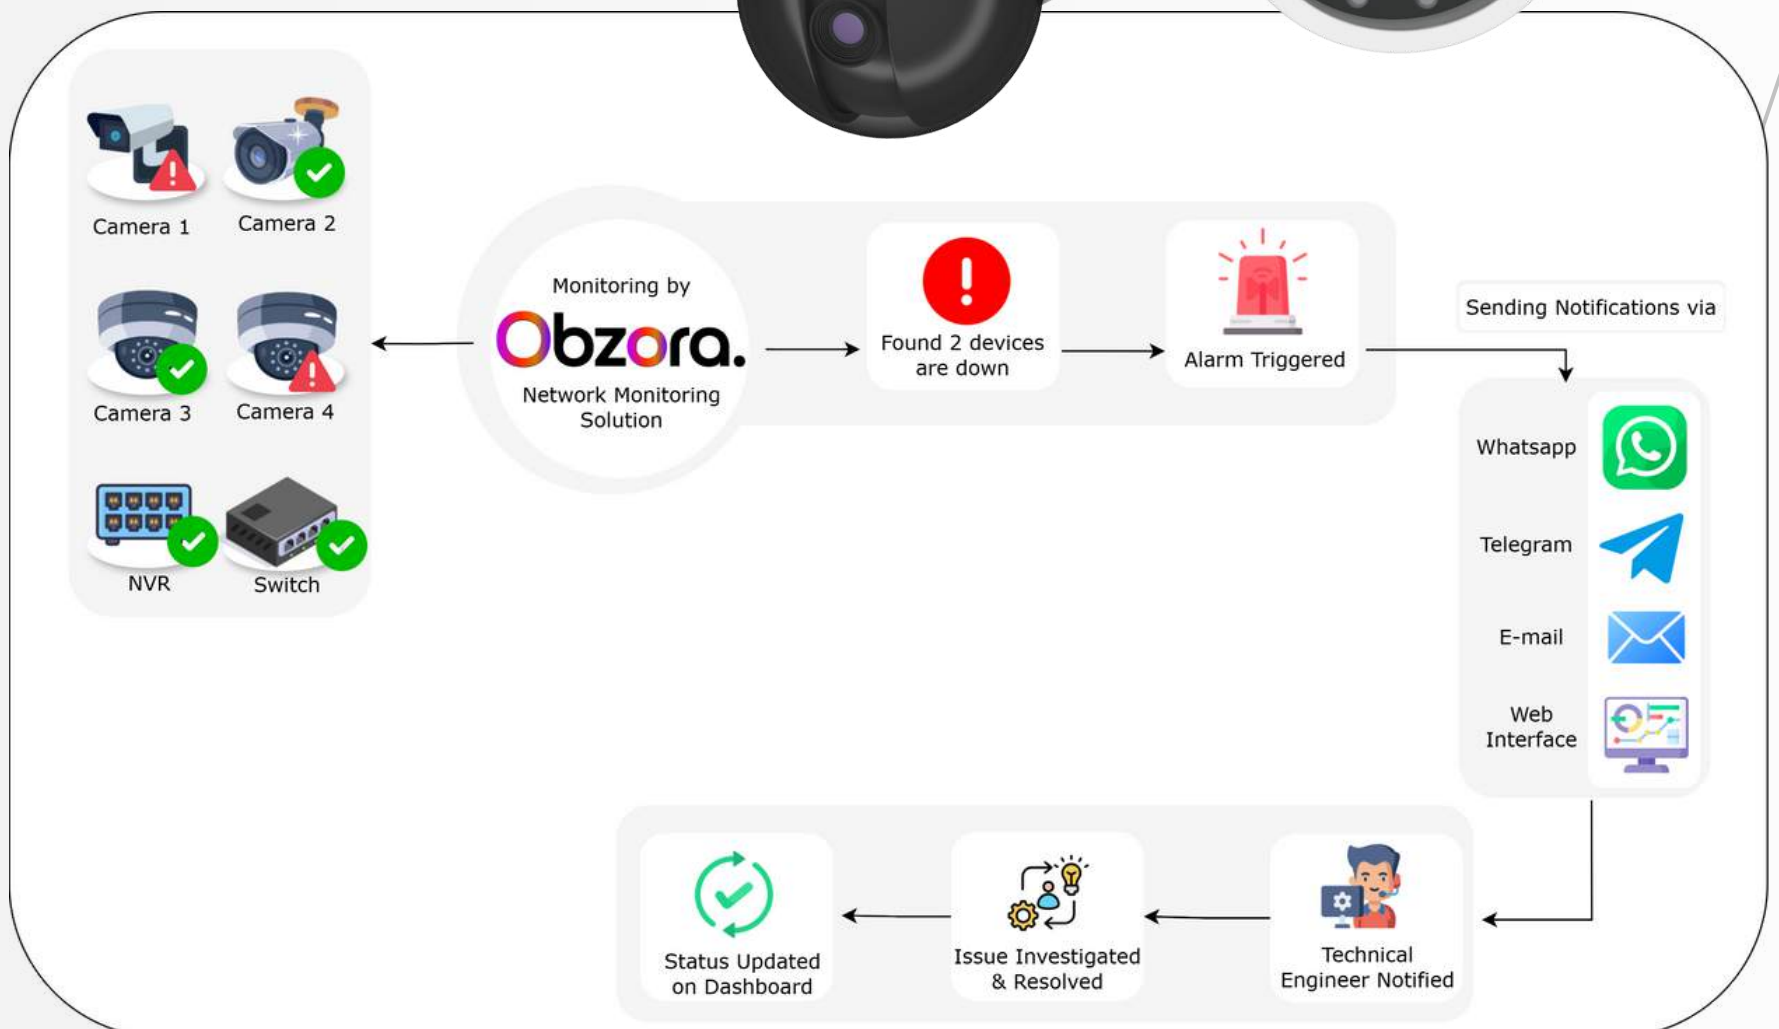

Cost-Efficient Solution

Avoid costly downtime and reduce manual surveillance system checks.

How Obzora Keeps Your Infrastructure Healthy!

TAILORED FOR CCTV NETWORKS

Unlike generic monitoring tools, ours is optimized for camera and NVR infrastructure.

AFFORDABLE PRICING

High-quality monitoring at the best market rates.

SCALABLE SOLUTION

Works with small to large-scale surveillance networks.

SUPPORT

Our team ensures your security systems are always performing at their best.

DONT LEAVE YOUR CCTV SYSTEM UNMONITORED!
